# Wyman Party Sails Away to Molokai on the Likelike.

"The party that will go to Molokai will be as small as we can make it," said Governor Carter yesterday.

And, indeed, it was small. When the Likelike steamed away from her wharf at 11:30 o'clock last night, she had on board Congressman Hepburn of Iowa, who introduced the bill providing for the building of a leprosarium at Molokai to study the disease from a scientific standpoint, Surgeon General Wyman of the Marine Hospital service, Dr. Cofer, Governor Carter, President Pinkham of the Board of Health, Captain Niblack of the Iroquois, Roy H. Chamberlain, W. O. Smith and C. L. Wight of the Wilder Steamship Company.

The party expects to return to Honoulu at about eleven o'clock tonight. The purpose of the trip is to look over the ground at the settlement and pick out a location for the proposed hospital. The details of the work will be arranged later. But Surgeon-General Wyman desires to see the place himself and it is altogether desirable that he should know what kind of ground he is working upon, and something likewise as to conditions at the Settlement. The party will go at once to Kalaupapa, where they will land if it is not too rough, of course, and will be taken to the Superintendent's house. All of Saturday will be devoted to the study of conditions, and it is probable Mr. Thomas B. Mosher. As might have that the Surgeon-General will devote some attention to an examination of the unfortunates.

This, however, will be a different sort of an expedition from the disgraceful communication from Mr. Gorham D. junketing trip undertaken by the late legislature, and which was the one great scandal of the regular session, together with an accompanying com-And its effects will naturally be more munication from Rev.
